WORK HEALTH - Round Table Series

Slovenia/ Ljubljana, November 24th

For all its Members States ENWHP aims at developing supportive national infrastructures for WHP. In order to initiate this process in all of the New Member States the network develops a series of “roundtable-meetings”. These events, which encompass representatives from businesses, politics, health experts and other stakeholders, are part of the network ambition to improve the dissemination of good workplace health practices and policies in these countries. The sixth roundtable of a series of seven was held in Latvia/ Riga.
